

“DECIDE NOW FIRMLY IF WE ARE TO APPEAR”

It is not very important for you WHO transmits this message, but we ask you to keep in mind that it should be anonymous in your eyes. What matters is what you do with this message and what is the intention it triggers inside each of you! Each of you has the right to use their free will in order to discover as fast as possible happiness, harmony and well-being. These are beneficial attributes, universally valid, which were shown often and which you can access at any moment from now on. You must know that your free will depends, to some extent, on the awakening and utilization of your own superior capacities. The happiness you can live depends greatly on the love and the good that you give and receive. Just as all conscious races that live on this planet, at your level of progress, you may have a feeling that you live isolated on your planet. This illusory impression makes you be certain of your destiny. However, you must know that you are facing great challenges which only a small part of you are aware of. We do not have, at this moment, the right to help you transform yourselves and construct your future without your previous, conscious choice. Consider this message as being very important for each and every one of you, as being a referendum at a world scale! Consider your firm, decided answer that will be able to be expressed several times telepathically, as a sui-generis ballot!

WHO ARE WE?

Currently, neither your scientists nor your religious leaders share the same opinion on the enigmatic, inexplicable observations that human kind has been making for years on your planet. In order to know the truth, it must first be faced unaltered by the filter of the various beliefs, no matter how respectable they are at first sight. A growing number of researchers explore new ways of knowledge in order to reach an essential reality. Your civilization is currently bathed into an ocean of information, much of which is chaotic, and only a very small part of it, the least troublesome, is being disseminated. If you look carefully, you will notice that those things which back in the ancient times of history seemed impossible or ridiculous are already achieved, especially in the last 50 years. Many of you already state that the future will be even more surprising. You will soon discover what is worst, and also what is best. Such as many other billion creatures that exist in the galaxy, we are also conscious creatures that some call “alien”, even if our reality is much more subtle.

You must be absolutely certain that, in reality, there is no fundamental difference between you and us, everything that differentiates us is the intense experience that we already have of certain superior stages of evolution. Just as any harmoniously organized structure, there is a value hierarchy within our internal relationships. Our hierarchy is based on the wisdom of many races. With the approval of this hierarchy, we are now addressing you.

Just as most of you, we are also looking for the essential experience of the Supreme Being (GOD). You may be absolutely certain that, in reality, we are neither gods nor semi-gods, but your equals within the Cosmic Fraternity. Physically, many of us are different from you, but most of us have human forms.

Our experience is a living reality, even if the great majority of you do not perceive it. You may be certain that we are not simple observations, but we are consciousness, just as you are. We are far beyond your understanding, because we remain invisible almost all the time, both for your ordinary senses and for your classic measurement instruments. Currently, our aspiration is to fill up this void that has appeared in this moment of your history. You must know that we have already taken this collective decision, but this is not enough. We now need your firm and dominant agreement. Through this message, each of you decides firmly and clearly the sequence of events to follow. If you study carefully this message, you will realize that you are and remain those who make a choice. We have no human representative on Earth that could orient your choice.

SOME OF YOU MAY WONDER: WHY AREN'T WE VISIBLE?

In certain stages of evolution, human kinds existing within the Cosmos discover new life forms whose science proves to be beyond the apparent control on matter. De-materializations and structured materializations are part of this. This is the stage that human kind has reached in some secret labs, which research these aspects in collaboration with other “alien” creatures, at the price of risky compromises that are hidden willingly by some of your representatives.

Except for the phenomena or space objects known to your scientific community, what you call UFOs are in fact “manufactured multidimensional shuttles” which use these characteristics.

Currently, many human beings already have hearing, touching or telepathic contacts with these instruments, some of which are already in the hands of the occult powers that govern you.

The quality of your observations in what concerns the reality of such gadgets is due to the considerable advantages that the de-materialized state of these space shuttles brings.

Since you haven't seen them for yourselves yet, you won't and you can't believe all this. We can easily understand that about you.

The major part of these opportunities you have to observe us sometimes is offered on an individual basis, in order to influence you and to impress your soul; it is not offered to modify the organized system that you have. This action is done voluntarily by alien races that surround you and that exist in the Cosmos, but you must know that each of them serves a different purpose.

For the evil multidimensional creatures (satanic) that are involved in the exercise of an evil power, shadowed by the oligarchy that exists on your planet, the secret and discretion are motivated by the maintenance of people's ignorance towards them, and by the desire to hide all these aspects.

In our case, discretion is motivated by a firm respect for free will of the human beings, which they can use and should use in the administration of their business, so that they can reach by

themselves the necessary spiritual and technical maturity. Beyond all these, the integration of the human kind in the family of galactic civilizations is much desired.

You must know that we can appear in broad daylight and that we are already willing to allow for the realization of this union and collaboration. We didn't do it so far because very few of you wanted this sincerely, either due to ignorance, indifference, fear or because there is no critical or urgent situation.

Many of those who study our appearances count the lights in the night, without lighting the way. Often, they look at these secret realities as if they were objects, without realizing that there is also consciousness there.

WHO ARE YOU?

Even if many of you are unaware of it, you are the descendants of numerous traditions, which enriched in time, gradually, through their mutual contributions. Some races that used to live on the Earth a while ago participated fully to this process. One of your main purposes is to unite by respecting these roots, in order to carry out together a project full of wisdom. The exterior aspect of your cultures appears at first sight as separating you, because you have the tendency to substitute it to your profound and essential being. Exterior shape acts on your subtle nature. This predominance of shape constitutes, for the ill-intended evil powers that govern you, the defense wall against their debate.

You must know that you are called upon to go beyond the form, respecting it at the same time for its secret necessities, for its richness and beauty. This consciousness of the secret necessity of the form made and makes us love the humans in their diversity. Peace is not only the absence of wars, but also becoming what you truly are in reality: the same FRATERNITY.

In order to better understand this aspect, the optimum solutions at hand are reduced to just a few. One of them is the harmonious and beneficial contact with another race, which can also clearly transmit the clear image of what you really are.

WHAT IS YOUR CURRENT SITUATION?

All our interventions so far had always a very weak incidence on your capacity to decide, both collectively and individually, your own future. This aspect is motivated by the knowledge of the profound psychic mechanisms.

We have reached the conclusion that inner freedom is awakened and perfected almost on a daily basis, as the human being becomes more aware of herself, of her exterior ambiance and her entourage, transforming and perfecting herself as she is progressively liberated of bad habits, limitations and inertias, whatever these may be. Despite the gigantic beneficial influence generated by numerous human consciousnesses, voluntary and courageous, these shackling inertias are maintained artificially for the profit of a centralized power, oriented towards evil and which is in a continuous growth.

Up to a while ago, human kind manifested a satisfactory control over its major decisions. Unfortunately, in the present moment human kind is increasingly losing control over its destiny, due to the large scale usage of so called advanced technologies, with bad consequences on the planetary and human ecosystems, which become slowly irreversible. It may be said that you are currently losing, slowly and certainly, your extraordinary power to make your lives beautiful, pleasant, harmonious and fully satisfactory. Your inner capacity of resistance will be diminished, especially due to these tricks, independent of your own will. Such evil technologies are used intentionally and affect both your body and your mind. An increased number of such projects are under construction on your planet.

Due to the ignorance you're in, most of you do not even suspect the evil that is in store for you.

It is necessary and urgent to realize that this situation you're in may be transformed into something good, as long as each of you has this huge creative power which can be opposed to the dark projects (plans) of your rulers who act from the shadows. That is why we stay invisible for the moment. You must know that this individual creative power which you have may be lost in the near future in the absence of an imminent super-effort, followed by a collective leap of great magnitude. You must also know that if this collective leap, profoundly transformational and of great magnitude, does not occur, the following period is one of rupture and diminishment.

You must realize that it's not necessary to wait for the last moment in order to find the perfect solutions for it. Don't you think the time to prevent and even heal your suffering is here? Your history has been constantly marked by meetings among nations that had to discover themselves in conditions that were often of conflict. Conquests that followed were almost always detrimental to some. Lately, Earth has become for you as a village in which everybody knows each other, but nevertheless conflicts continue, and threats of all kind aggravate as time passes, both in terms of duration and intensity.

From an individual perspective, the human being, although having numerous beneficial capacities, even amazing ones, does not even suspect, most often, that she has such extraordinary powers and, especially, due to the fact that she is not guided and helped to awaken these capacities, does not discover them or exercise them as she should. This is, unfortunately, the situation in the case of the vast majority, and you must know that you are intently kept within this state of ignorance, especially due to geopolitical reasons. There are currently billions of you on this planet. Both the education of your children and your lifestyle, as well as the existence of countless animals and plants, are under the control of a small number of your political, financial, military and religious representatives, which, for the greater part, are not well intended. The great majority of your desires, thoughts and beliefs are modeled cunningly according to certain partisan interests, in order to enslave you, giving you at the same time the illusion that you are the masters of your destiny, which in practice is not true at all, but which in essence is the reality.

You must not lose sight of the fact that there is a great difference between a desire that is awakened inside you and its realization, especially when, due to your ignorance, you don't even suspect what are the true rules of the game. **When you manage to know the entire truth, you will be able to realize that, in fact, you are not the conquerors.** A certain orientation or modification of information is a millenary strategy, which persists up to today in the human

beings. The induction inside the invisible structures of your being of thoughts, emotions or even organisms that are not useful or beneficial, through specific technologies, is another strategy that is widely used nowadays. Many of the technologies that have extraordinary potential for serving progress, for now are used only to great threats and enslaving or even destroying human beings. All these opportunities and all these threats, as well as others that will appear in the near future, are and will be a tough reality.

Due to your ignorance and inertia, you are able to see only the insignificant part, the only one that it was decided, by those with monopole over power, to be shown to you. The exhaustion of resources is programmed, just as it is programmed that no long term collective project, useful for human kind, be started or carried out.

Few of you know that the mechanisms of exhaustion of your ecosystem have reached already irreversible limits. The rareness of certain resources, as well as their chaotic, unequal distribution makes their price rise higher and higher and will determine in the near future fratricide confrontations in the heart of your cities and villages. In the near future hate and wickedness will grow, but along them love will also grow. Amplified love will allow you to keep the hope in your capacity to find wise and efficient solutions to your problems. But you must know that the critical mass is insufficient at the moment, and an activity of undermining of great proportions already operates on your planet, under clever and evil shadow supervision.

The great majority of human behavior that is shackled by bad habits and wrong prejudices from the past makes possible the existence of this state of inertia, because this perspective may lead you to a blockage. Those of you who already know this think that the responsibility for all this belongs to representatives whose consciousness of common good for human kind fades away in front of killer corporate interests. Even if currently there are numerous formal debates, there are very few substantive debates.

Many times, in the moment of action, delays accumulate and many slow-downs appear, until you are more forced to act than choose. This is the reason why, more than anytime throughout your history so far, today's decisions will have a significant directly proportional impact on your survival of tomorrow.

What event could radically modify this state of inertia that is specific to your civilization? It is worth asking yourselves: where would this collective, profoundly unifying grasp of consciousness capable to stop all acceleration of evil come from?

Always, throughout history, tribes, people and nations have discovered each other, have met and interacted constructively. In front of the increased threats that operate on the human family, more than ever, it's high time that a wise action at a larger scale be manifested.

You must realize that a strong wave is about to appear. In this huge wave there is a chaotic mixture of very positive, beneficial aspects but also very evil, terrifying ones.

WHAT IS “THE THIRD PARTY”?

There are two main ways to make a constructive cosmic contact with another civilization:

- a) Through its representatives in power at that moment;
- b) Directly, through individuals without distinction.

The first way determines the appearance of certain conflicts of interest, and the second determines a superior grasp of consciousness.

The first way was already chosen by a certain group of alien races motivated to maintain human kind into slavery (obedience). This group of races intends to control thusly both planetary resources and the genetic patrimony, intending to fully influence and control human emotional energy manifested at planetary level.

The second way was chosen by a group of alien races allied to the divine cause of the Spirit. In what concerns us, we have positioned ourselves on the side of this disinterested cause, presenting ourselves a few years ago to some representatives of the human race on this planet who refused the hand that we reached out to them, under the excuse of incompatible interests with their strategic vision.

That is why we decided that, currently, **a majority of human beings be called to make this choice consciously, without any interference from any representative of authority.** Everything that we proposed at that time, in the past, to those we considered capable to contribute fully to your happiness, we now address directly to you, for the near future!

You are unaware that, unfortunately, some non-human creatures (alien) have taken and take part to a great extent to the exercise of power that centralizes and monopolizes the domination existent on your planet, without these serious and troublesome aspects being accessible to your ordinary senses. Even if many of you don't believe it, you must know that it's perfectly true that these non-human (alien) creatures have almost taken full control over the destiny of this planet. You must also know that these non-human (alien) creatures do not necessarily live in your material world, and this aspect is surely what makes them terribly efficient in doing evil and even to be feared by the entire human kind in the near future.

Given these conditions you're in and that you don't even suspect, the question is now how you could still use in a creative and beneficial way your free will, when it is being manipulated to a great extent?

WHAT MAKES EACH OF YOU TRULY AND TOTALLY FREE?

Peace and reunion in harmony and understanding of your people could be a first step, which must be made in the direction of a harmonious contact with other advanced civilizations from the Cosmos, and which are different from your civilization.

Such an alternative is what the evil manipulators from the shadow want to avoid at all costs, because they know that through division and the induction of a state of fear, they can then easily control you! You may easily understand why currently the same project of division and submission is pursued by your leaders. Their evil force appears also due to their cunningness and ability to induce into your being fear, doubts, uncertainty, indecision and mistrust. All these flaws, that are skillfully awakened and amplified inside you, considerably harm the awakening of your cosmic nature, stopping at the same time the awakening of the extraordinary beneficial latent powers that exist in every one of you.

This message that we now address to you did not make any sense unless we wanted to wake you up from the state of sleep you're in, so that the tyranny of these manipulators does not reach its climax, and their evil, sly, killer plans are not carried out in just a few years, with bad consequences of large proportions for the entire human kind. It is necessary for you to know that the deadline for these plans is very close, and that is why human kind will suffer dramatic changes, which will be almost unprecedented in the next 10 cycles.

Because it is necessary for you to start protecting yourselves from these invisible aggressions, you must awaken and start using, now more than ever, your extraordinary spiritual capacities, which at the same time will determine the appearance, in your being, of genius inspirations allowing you to discover creative solutions to these serious problems you're confronted with.

You must know that, just as some resistance is manifested in the great mass of human beings, there is also some resistance that still persists inside these evil elites. You must keep in mind that exterior shape will not be sufficient to help you distinguish clearly the dominator from the ally. In your current state, it is rather difficult for you to carry out certain efficient, beneficial and helpful activities, given the condition of the human psyche. In order to become what you have been destined to be since the beginning of time, it is necessary that, along a sufficient awakening of your intuition, to do a special training (apprenticeship), which will help you overcome the limits that were imposed on you and to awaken the extraordinary creative potential that you have.

Knowing the priceless value and the immense power of free will that each human being has, we now invite you to participate, in full awareness, to a superior and constructive beneficial alternative that you so much need.

WHAT HAVE WE TO OFFER?

As you will see at the right time, we bring a new vision, wider, deeper, profounder, global, on the universe in which we all exist, as well as on life in general. Additionally, we may offer the evidence that may be easily put into practice of beneficial, harmonious, constructive interactions. We offer you our experience related to balanced relationships, based on love and fraternity. We offer you an immense multitude of technical knowledge. We can help you pass on to a new stage of elimination of suffering and diseases. We can help you awaken and even reach a controlled and beneficial usage of your individual latent powers. We can teach and facilitate your access to new forms of endless energy that exist continuously around you and with which you may enter into resonance by using certain adequate scientific methodologies. We can help and guide you to

easily reach a great enlargement of the sphere of your individual consciousness, which at the same time will help you know yourselves and will allow you to awaken within your being certain spiritual and psychic powers considered as exceptional for the great majority of human beings living in ignorance.

We announce you however that we will never be able to make you overcome your individual and collective fears. We won't be able to make you overcome your doubts, hatred and evil that is eating you up inside. It is necessary for you to know that we will be able to make you understand and then put into practice those universal laws that previously you yourselves should choose and understand in order to transform your body and your being from all points of view. This help that we are offering you does not imply that we will do the work for you, because this disinterested help that we are offering does not imply that we will start making individual or collective efforts in order to build the harmonious and good world that you so much desire. Starting from now you may be certain that we will show you the way, but will not be able to give you the aspiration, love and perseverance you need to discover new worlds, that which of you will access when you make all necessary efforts to succeed.

WHAT DO WE GET IN RETURN FOR THE DISINTERESTED HELP THAT WE ARE WILLING TO OFFER?

If through this planetary referendum, during which you will have the possibility to manifest your clear and firm intention that we appear, you decide to have a planetary contact with us, we are happy to announce that we will be very glad of the appearance and maintenance of the brotherly equilibrium in this part of the universe. Throughout these contacts, we want to benefit from creative, diplomatic exchanges and from the intense joy that will fill us when you are united, full of benevolence and good intentions, so that as many of you as possible realize what you are capable to do. Intense and profound feelings of joy, love and happiness are endlessly searched throughout the universe, given the fact that the basic expression of these feelings is always divine. The entire happiness, as well as the good and harmony that we will help you discover will also pour down on us. Now it's time to remember the question you were asked.

DO YOU WANT, CLEARLY AND FIRMLY, TO SEE US APPEARING?

Here is how you should answer this question!

The sublime, secret realities of our soul can be manifested clearly and firmly. More than that, you may be absolutely certain that, each time you manifest them, thinking clearly and firmly of us, all those thoughts of yours will be immediately intercepted by us, or, better said, will be telepathically felt. For this, it is enough to ask this question, and then answer as clearly and firmly as possible, either when you are alone, or even better within an organized group that acts simultaneously. Beyond this advice we offer, you must be certain that each of you will be free and able to act as you please. Therefore, if you are either in the center of a town or

somewhere in the middle of the desert, this aspect will not modify the efficiency of your answer. When you ask yourselves this question, your clear and firm answer should be either YES or NO, but we ask you to think previously about it, so that your clear and firm answer is not formulated **AS SOON AS YOU ASKED THE QUESTION**. When you decide to answer this question, we advise you to do so as if you were talking to yourselves. Before answering, it is best to meditate on the content of this message in a responsible manner, and to take into consideration all the information available to you during this message. Before answering either YES or NO, consider that this is a universal question and realize that the words making up the question have a strong significance, which afterwards will resonate within your being, triggering an occult resonance process in your inner universe. When you eventually decide clearly and firmly on the answer, you must be careful that no hesitation bothers you during those moments. That is why we ask you to think clearly and firmly beforehand about all these, both within your soul and consciousness. It is also necessary that, especially when you are formulating the answer, you manifest a clear and strong intention that will accompany simultaneously your answer. It is good to know that in order to associate harmoniously the answer with the question it is recommended to answer only after you have studied 3 times in a row, but at different moments, this message that you should read carefully.

AN IMPORTANT ADVICE THAT YOU SHOULD TAKE INTO CONSIDERATION!!!

We ask you to keep in mind that you must not hurry and answer lightly and superficially to this question. We advise you that before you answer, you should breathe calmly and profoundly, letting the secret power of your free will become dynamic within your body. By doing so, many of you will discover the mighty power of your free will. Especially in those moments, start appreciating fully the essence of your being and experiment an intense and overwhelming state of joy for being what you are! Especially in those moments, it is recommended that you overcome and transcend the difficulties that some of you are having and that are diminishing your decision-making capacity. That is precisely why we ask you to forget all the problems and tensions that torment you, aspiring with all your strength to become fully detached from them at least for a few minutes, because if you succeed you will be yourselves, in your entire splendor. In the moment of the full and intense manifestation of your free will, try to feel the entire almighty force that springs from within you, just like a lightning. **In the moment when you formulate the answer, realize that you are truly your own master, and remain in that state in the moments to follow!**

Please keep in mind that, in order to increase the impact of your answer, both in your inner universe and in the cosmic environment you're in, it's possible to answer periodically to this question especially when the answer is YES, but you must keep in mind that the answer should be and remain the same (it cannot be YES once and then NO, then YES, then NO, then three times YES, then NO, etc.). By acting in observance of these suggestions, and answering even periodically to this question, you will compensate in a certain way the lack of participation of those who are not informed of the existence of our message. You must also remember that in the case of an affirmative answer (YES!!!) which can be repeated periodically, even 3 times a week, the effects will start appearing in your being and will be profoundly beneficial, creative,

purifying. **More than that, in the case of a periodic affirmative answer, the sublime effects of this renewed answer will appear in your being and you will see a sum up of these beneficial effects that you will experiment in the form of a renovating and profoundly transformational cumulus, that will grow and gradually amplify.** Even more than that, we suggest that you offer this message at once to as many people as possible in order to increase the number of human beings who make an informed choice. By acting like this, with enthusiasm and dedication for this noble cause, you accelerate the moment in which you **will see us appear on the sky of your planet.** It is important to know that our appearance will be possible shortly after the appearance among the human beings on this planet of a sufficiently strong state of planetary consensus.

You may be sure even from this moment that one clear, strong thought crystallized as a firm and categorical answer will be able to shake all the evil on this planet in the near future, if a sufficient number of human beings will say YES. We do hope that this will happen soon! It is good to realize that a clear and firm formulation of your intention, in your inner mind, will determine us to manifest ourselves soon in your material world and in broad daylight, if a sufficient number of human beings on your planet say a clear and determined YES. If this happens, the moment of our appearance before you will be, for the both of us, extremely precious; moreover, for the entire human kind this will prove to be profoundly transformational and even indispensable. Although each of you may choose the form of your answer, you must know that for us it is useless to practice any rituals concerning us. You must know that in the case of an affirmative answer (YES) that is formulated periodically, clearly, firmly, sincerely, strongly, as soon as it is manifested from the heart and from your will, such answer will always be perceived instantaneously as soon as it's formulated. Even when you answer several times a week and say YES you will feel, more and more intensely, that we will also answer instantaneously each time.

It is necessary to keep in mind that when you answer YES in the intimate voting cabin of your firm intention and your secret will, you will at the same time determine your future and be able to radically transform your destiny at a planetary level.

WHAT IS AND HOW CAN THE GRAND, INCREDIBLE LEVER EFFECT OF SIMULTANEOUS COLLECTIVE FAITH TRANSFORM EVERYTHING ON THIS PLANET?

(Attention!!! We consider that a fundamental secret known only by those initiated is revealed in the following – Editor's note)

In the case of an affirmative (YES) answer, which may determine us to appear for all of you in your physical world, you must keep in mind that this decision must be manifested by a sufficient number of human beings, even in some of you who are skeptical and pessimistic this could appear as an insignificant action. Knowing this, it is recommended to disseminate to a large number of human beings this message (both in writing and audio – on a CD or tape) in almost all languages that exist on your planet. In this way, a large number of human beings will be able to

pick an alternative, and in case their answer is YES, this could radically transform the destiny of human kind on this planet. There is no problem if the message is transmitted in a funny way, because, despite the manner of dissemination, in this way our message gets to be known and appreciated by many human beings who, in full awareness, will be able to choose and answer through a firm and determined YES. In case this message reaches you, you should read it carefully 2 or 3 times and at the end it is necessary to opt for a clear and firm answer. Please keep in mind that this message, which will not reach you randomly and that you should read carefully, must not allow you to remain indifferent. It is necessary to realize that through the firm and clear answer that you eventually offer to the question asked within the message, you also become aware of the existence of the mighty energy of your free will, WHICH YOU WILL BE ABLE TO START USING FOR THE FIRST TIME IN YOUR LIFE ON THAT OCCASION. Even if for one such experience, which can enrich you and make you aware of the unsuspected capacities that exist in your being, it is worth sacrificing few minutes of your time. The experience you will have will no doubt convince you that you were not wrong. This is a step that will help you convince yourselves indirectly that this message is real. More than that, you must not forget that this experience may offer you afterwards an inner surprise of great proportions, which can generate a strong beneficial echo in the case of an affirmative answer (YES). Given the secret adding up of your affirmative answers in time, and if a sufficient number of human beings will answer YES, this will generate an unsuspected cumulus which may trigger an amazing transformation at a planetary level. Given the fact that the existence of every person on this planet is very precious, it is important that each of you answers clearly and firmly to this question, with the conviction that your answer will contribute to a possible transformation of great proportions which will appear in due time on your planet. You must also realize that in case of an affirmative answer (YES) that you formulate clearly and firmly, the entire human kind on your planet will eventually benefit from it, including those people who were unaware of the existence of this message and could thus make no choice. In case of a firm and clear affirmative answer, you will have the possibility to discover in your being the secret and surprisingly powerful existence of your free will. It is important to remember though that, no matter your answer (either YES or NO), the presence of our message in your hands must not leave you indifferent. As soon as you formulate a clear and firm answer, it's necessary to forget about the false prophets and about all the opinions more or less deformed that were transmitted to you throughout time. Consider that it is possible that this message is one of the most important and direct that were laid at your disposal up to now, in order for the whole human kind to enter into contact with an advanced alien civilization.

You must also realize that it is your individual birth right as well as your responsibility to decide on your own on such an aspect (of such an importance to human kind), either as an individual or a group. Each of you who read this message carefully must realize that in the present situation both indifference and passivity that you manifest lead nowhere but to the absence of freedom. The manifestation of the secret power that each of you can manifest for the entire human kind through your free will may trigger important effects, both within your being and on the planet you live on. You must be aware that your indecision is always inefficient, because even when you manifest it, in reality you manifest paradoxically THE DECISION OF NOT MANIFESTING SOMETHING GOOD, CONSTRUCTIVE AND CREATIVE WHICH COULD RADICALLY TRANSFORM EVERYTHING, BOTH IN YOUR OWN BEING AND OUTSIDE OF YOU, ON THE PLANET WHERE YOU LIVE.

In case you choose to remain the fanatic prisoner of your beliefs, which we are able to understand, then you can answer through a firm and clear NO. We ask you that, in those situations where you aren't capable to choose clearly, firmly and responsibly, do not say a formal and superficial YES that is motivated by an ordinary state of curiosity. We ask you to previously realize that we, those who intend to help you, if you also firmly want it, do not intend to make a show, but that we truly exist in a certain way, in an objective reality in which we live. Do not lose track of the fact that in our world, WE TRULY EXIST JUST AS AT THE SAME TIME YOU EXIST IN YOUR WORLD! Do not let pessimism catch you at any moment, considering that the number of people saying YES will be very small.

Remember that your history saw many episodes in which a relatively tight group of men and women that were firmly decided, united, enthusiastic and heroic, have managed to modify surprisingly the flow of events, despite their small number. We are sure that you know such examples. **When indifference and inertia catch you and have the tendency to paralyze your creative initiatives, think lucidly and with clear judgment that, just as a relatively small number of ill-intentioned people representing the elite acting in the shadow was capable to take over temporary control over planet Earth, influencing for the bad the future of a great number of people living on it, it is also possible that only two or three hundred determined people, acting together at all times, united, overturn the tragic collective destiny of this planet!** One such strong brotherly group, which is also determined and animated by great ideals, may contribute, with the huge help that we are willing to offer, to the birth of the new human kind that is to be integrated into the great Fraternity of Galactic Civilizations. **Through your union into an organic and harmonious whole, a huge and supernatural power may result, capable to transform shortly the current tragic state of your planet. If one group made of at least two or three hundred people acts each time together, animated by clear and strong intentions based on elevated ideals, it will be able to manifest amazing transformations on the planet you live in!**

As soon as such a group starts acting strongly, you will discover that rapid and surprising transformations are possible, even if right now most people consider them impossible. You will easily notice that through your union made to fulfill good purposes, a gigantic manifested power will instantly appear inside you and you will thus finish up the most difficult project that seem impossible to the doubtful or those in apathy. Unite in order to fulfill purposes based on sublime, elevated ideals and get together for these actions, whether you are 3, 5, 10, 100 or 1000, and dare to act always for the good, animated by strong, clear, firm intentions. When you act in such small or big groups, you may be certain that even before starting your actions, when they are done simultaneously, they will be successful. Your full and profound union, both in what concerns your intention and thought, feelings and actions with other people that are animated by the same intentions, will be enough to trigger an immense creative power which will amaze you.

Remember that one of your thinkers once said:

GIVE ME A STRONG SUPPORT POINT AND I PROMISE YOU I WILL RAISE THE EARTH WITH ITS HELP.

On the other hand, another thinker said:

A TRUE FORCE-IDEA OR A STRONG ASPIRATION WHICH AT SOME POINT STARTS SPREADING AND GROWS BECOMES AT A CERTAIN POINT A HUGE POWER THROUGH AN OCCULT PROCESS OF MULTIPLICATION AND THEN ITS HUGE ENERGY ANIMATES HUMAN MASSES, PROVOKING CORRESPONDENT AND LONG TERM TRANSFORMATIONS ON EARTH.

Those of you capable of understanding what we have revealed here, we, who want to be your brothers, will realize that we have put at your disposal a GREAT SECRET which, in case it's put into practice systematically and with perseverance, will soon attract the complete transformation of the destiny of human kind and at the same time the destiny of the planet you live on. Those of you who read carefully this information must realize that the dissemination followed by putting this advice into practice is and will remain (beyond appearances) THE STRONG SUPPORT POINT necessary to be used each time at the right time, and we, your brothers, who exist in a certain world of the reality of the universe, will be and remain for you the LONG ARM OF THE LEVER THAT IS STRETCHED FOR LIGHT YEARS, and you will be helped to become the creators of the elevation of planet Earth, following our appearance into your world, which needs our benevolent help.

WHAT ARE THE CONSEQUENCES THAT APPEAR WHEN A SUFFICIENT NUMBER OF PEOPLE FORMULATE CLEARLY AND FIRMLY AN AFFIRMATIVE DECISION (YES!!!)?

For most of you, an immediate consequence of a favorable collective decision expressed by a sufficient number of human beings through a clear and firm YES will be the materialization of numerous UFOs on the sky of your planet and at the same time, some of these space ships will come down on the Earth. For many of you, the direct effect of this contact with us will be the rapid abandonment of numerous dogmatic certitudes and false beliefs.

Even a simple visual contact that can be carried out simultaneously in several spots on the Earth could have huge repercussions on your future. Shortly after, numerous false beliefs or wrong conceptions will be eliminated or modified forever. The organization of your society will be profoundly turned around, more than ever, in almost all areas of activity. Faith and beneficial power awakened within you will become individual because you will see, many of you for the first time, with your own eyes that we are alive and exist as such. **Ulterior contact with us will help you considerably to transform your scale of values!**

Especially in our vision, the most important aspect that will appear is that human kind will be able to form at last one single Fraternity, as soon as it is faced with the "unknown" that we were considered so far!

In this way, many dangers will move away from your houses, because our contact will force the undesirable, or in other words, those we call "The third party" to show themselves for

the first time and, shortly after, to disappear. On this occasion, you will see that you have the same name and that you come from the same root: HUMAN KIND!

Shortly after, a multitude of exchanges and pacific collaborations, full of benevolence and respect will be possible if you should so desire.

In the current state of facts, those of you that are hungry cannot smile, those that have paralyzing and tormenting doubts and those who are afraid cannot open themselves in order to receive the help we are offering.

We confess that we are feeling a great compassion when we contemplate human beings that suffer both in their heart and in their body in many places that exist on this planet. Although in fact each human being holds in her universe a priceless undying light through which many miracles may be made, both in other human beings and in the environment of the planet you live on. This hidden and eternal light could be for the many who live on this earth your elevating, happy, sublime and profoundly transformational future. Afterwards, your contacts and relations with us will be progressive.

We announce you that there will be several stages in what concerns our collaboration with you, which will be divided on several years or even decades. A first stage is the appearance of our space ships which will be seen simultaneously by a large number of people.

A second stage is our physical appearance and materialization in the presence of certain human beings chosen by us previously for such contacts.

A third stage involves the free collaboration with you in order to help you take important steps both in what concerns your technical evolution but also your spiritual maturation.

A fourth stage involves the discovery, in close collaboration with us, of a huge part of your galaxy, which currently is almost unsuspected.

You must keep in mind that, every time, within these collaborations you will be offered new possibilities to choose. Each time, you will be the ones choosing and deciding and, as you will start understanding all these, you will be able to take new steps together with us if, obviously, this is necessary, both for your own spiritual good and for your exterior good. All these inner spiritual transformations will be made under our guidance, but each time you will have to make the necessary efforts in order to put into practice these methods that we will reveal to you, through yourselves. During our collaboration, you may be certain that no interference will ever be decided in a unilateral manner. More than that, you must know that we will leave this planet shortly after your collective desire and intention will be expressed to this purpose. Several months or maybe even years (all these in tight relation to the speed of dissemination of this message into your world) will be necessary before OUR GREAT APPEARANCE. You must be sure that our appearance will happen shortly after the firm decision of a sufficient number of people is expressed; they will use creatively their capacity to choose and opt by answering with a clear and firm YES to the question we ask in this message. You can be certain that OUR GREAT APPEARANCE will take place on your planet only if this message that we have disseminated

finds a strong enough echo; this however does not mean that all people on your planet must opt for this choice.

It is good to realize that, in fact, what triggers the appearance of a fundamental difference between your daily prayers addressed to GOD or to superior entities whose nature is mainly divine, and the firm and clear decisions that you manifest in what concerns us, when you say a firm YES is very simple and obvious: WE ARE EVEN AT THIS MOMENT PERFECTLY EQUIPPED IN ORDER TO MATERIALIZE INTO YOUR WORLD!

WHY DO SOME OF YOU HAVE A CERTAIN HISTORICAL DILEMMA?

We know that most often THE STRANGER is regarded as an enemy, so long as he stays “hidden”, “unknown.” In a first stage, the common emotion that is intensely lived will solidify in a certain way the links that appear between you at a world scale, through the triggering of certain resonance processes.

It is possible that some of you ask themselves the following question: how can we know if the appearance of these alien creatures is truly a consequence of our collective choice? The answer that we offer is simple and clarifying: firstly, you may be certain that we could have already been there, in your existential plane and manifested ourselves as such, in secret, for a long time! Given the fact that for now we are not in your existential plane, it is the consequence of the fact that you have not yet decided it firmly and explicitly.

Some of you might believe that we only want to make you believe in the so called deliberate choice in order to legitimize our arrival, even when there isn't a case to have it. In case you continue to feed such ideas, it is worth asking the following question: what could our interest be in offering openly something you cannot access for now, for the benefit of a great number of humans?

Others may ask: how can we be certain that in case of such a contact we are not dealing with a sly maneuver of the third party so as to make us even more obedient? Our answer to this question is simple: it is not possible to be so, because it is always simpler to fight the one we identify and see than the other way around (in other words, it isn't possible to fight or defend ourselves from the one that we can't see or identify, due to his invisibility). The fear of terrorism that torments you is a flagrant example. Beyond the doubts and suspicions that may torment some of you, you must be convinced that you are the only judges in your souls and consciousnesses! In our case, you can be absolutely certain that any of your choices is and will always be respected! In the absence of declarations of human representatives which may lead you into doubt, you are currently ignoring everything, both on our account and on the account of those who manipulate you without your consent. Due to this situation, the observance of the principle of precaution which involves now that you don't even try to discover us is no longer convincing. Whether you realize it or not, you are already in Pandora's box, which THE THIRD PARTY has created around you. Irrespective of your choice, you must not lose sight of the fact that, before anything, you must get out of Pandora's box in which you already are.

Faced with such dilemma, which represents also a state of ignorance fighting another state of ignorance, you must prove to have common sense and ask your heart and intuition. In conclusion, you must choose – do you want to discover us with your eyes, or do you want to believe blindly what evil scientists or trend-setters tell you? This is our true question!

After thousands of years, at a certain point this choice may prove inevitable: you will have to choose between two unknowns. Let's see now why it is so good to spread such a message among you to shortly reach as many people as possible. It is very important to translate at once and to disseminate this message in order to make it reach as many people as possible. In case this action is successful, and we appear for all of you, this victory will orient your future in an irreversible manner, which will also have a historic impact at a millenary scale. You must also keep in mind that, in case this referendum does not reach its purpose, such a failure will delay this extraordinary opportunity to choose, for many years later, with at least a generation, if it survives by then. Not informing people of the existence of this message means risking to have a result that is contrary to expectations. Remaining indifferent or skeptical means giving up the possibility to use your free will creatively, which, in case of a planetary favorable trend which will manifest itself **JUST AS A FORCE-IDEA, WILL BE ABLE TO TRANSFORM FOR THE BETTER THE DESTINY OF HUMAN KIND.**

It is good to realize that, in case of this referendum that you must carry out telepathically, your future and the future of the entire human kind is at stake. Should this referendum have a positive result and determine our appearance, this success will involve a leap for the human kind and will accelerate considerably your evolution.

Beyond all these, it is still possible that this message will not receive your sufficient collective agreement. A possible cause for such an insufficient collective agreement could be an insufficient presentation of this message to a sufficient number of humans. In such a situation, you should not be surprised if the skeptical are fast to state that this message did not have any value, being nothing but a meaningless text. Nevertheless, beyond what is about to happen, we would like to announce you that in reality no beneficial individual aspiration stays without an echo in the being of that who manifests it, because always the holographic structure of the universe answers at the right time, just as a huge resonance box, each person being repaid afterwards for all the good thoughts and intentions he sends out. You can be certain right from the beginning that to a certain extent we will answer to many of you when you think creatively about us and, as you will soon realize, we will even inspire and help you. As you will see, all sincere and enthusiastic efforts you make in order to enter into a telepathic spiritual connection with us will get afterwards some unexpected answers and inspirations which will make you realize that beneficial aspirations are superior to inaction and indulgence into indifference. If our message manages to gather your sufficient collective agreement, we ensure you that we have great patience and we are waiting for the time when you will all deserve to assist to our **GREAT APPEARANCE.** The moment in which our message receives from you a sufficient collective agreement depends totally on those of you who, during days and months that pass by, look forward to the day of our **GREAT APPEARANCE.** Imagine now, full of optimism and hope, what will happen if the day of our great appearance will be next month. Thousands of space ships will appear then at the same hour on the sky of your planet. You should be able to tell that such appearance will represent for many of you a true cultural shock, which will be unique in the

current history of human kind. Starting from that day, there will not be a need to disseminate this message, but the skeptical and the indifferent will feel a wave of regret that they refrained from disseminating this message to other people or they avoided to answer clearly and firmly to the question asked. In that unique day, our discovery by humans will be irreversible. Given the urgency of our message to you, we ask you to read carefully this referendum and we insist that you take your time, reflecting on the answer that you will send to us and then to DECIDE!!!!

As you will be able to see, the mass media that is controlled from the shadow by those who are animated by evil intentions will have no interest to ever disseminate this message, even if it is being offered to them freely. Keep this in mind that you, extraordinary, responsible and loving anonymous human beings have the task to transmit this message to other people in your country. Knowing this, give this message to as many people as possible and determine them to choose and not stay indifferent to the content of this message. By acting with dedication and presenting our message to as many people as possible, realize that you are starting to become the creators of your superior planetary destiny. In conclusion, we ask all of you to answer after a mature thought to the question:

DO YOU WISH CLEARLY AND FIRMLY FOR US TO APPEAR?!

We announce you that you are free to copy, reproduce and transmit and even publish in separate brochures this message, spread it anywhere and everywhere you want, but please do not modify it or remove paragraphs from it.

This is where the message that was disseminated on the internet by an advanced alien civilization ends.

SEVERAL USEFUL COMMENTS

Both the information included in this section and the content of this special message are not addressed to those who in their foolishness consider that there are no aliens or alien civilizations. Such fools think that the only planet in the universe where physical beings have conscious life is only the planet Earth. In their limited vision they are convinced that planet Earth is the only planet with life among the hundred billion galaxies in the physical universe which make up what we call the COSMOS and which, in the vision of the wise men, is one of the three worlds. After reading carefully this message, I was pleasantly surprised by its coherence, pertinence and objectivity, and afterwards I checked through direct spiritual experiences the existence of the alien source behind this message. We were thus convinced of the truth of this planetary referendum and we decided that it is good for it to be put at the disposal of all those who are open to study it carefully and then telepathically answer, in a firm, clear and responsible way, to the essential question that humans are asked within this message. As you will see if you study carefully this message, we have nothing to lose if we take seriously this message and respond clearly and firmly – telepathically – to the question asked by the aliens within this message. We can only win if a certain number of humans answer telepathically, clearly and firmly to the question asked in this message from each human being.

We could not find any contradiction or aberration in this message full of common sense and wisdom. Studying it very carefully, each of us have a lot to learn from its content. This message is also very significant and warns us about the gigantic planetary conspiracy of the so called “illuminati” about who we often talked within this spiritual school. We know that unfortunately there are still many fools for whom the reality of this gigantic planetary conspiracy is nothing but a fantasy or aberration that is not worth considering. Beyond all these, you should know that currently there is lots of overwhelming evidence on the reality of this conspiracy. More than that there are many books filled with irrefutable evidence which contain shocking photos proving the reality of this gigantic planetary conspiracy that was and is planned from the shadow by the world free masonry. This gigantic conspiracy is not a so called conspiracy theory, such as some sly free masons try to say it is, adding to it the misconceiving “theory” label in order to confuse the fool and naïve who are then fast to say: THEORY... THEORY... THEORY... I’VE HAD ENOUGH, I WANT FACTS! That is why many ignorant and naïve people, as soon as they hear about this ‘planetary conspiracy’ that was weaved from the shadow by the so called illuminati, shrug their shoulders full of skepticism, avoiding to study anything of the evidence existing on the internet, being convinced that is all just a THEORY. By doing so, such naïve human beings avoid to take into account the facts and that is why the elite of the world free masonry continues undisturbed its diabolic planetary activity, implementing from the shadow the so called NEW WORLD ORDER which is mentioned even on the one dollar bill which also includes other famous Masonic symbols, such as the pyramid and the eye of Lucifer which is placed on the upper part of the pyramid, which, not without reason, has no top.

Additionally, for those of you who wish to enter into telepathic communion with this alien civilization, we announce you that we have prepared a special geometrical design (crop circle) which was transmitted at a certain point by the same alien civilization and appeared in a crop in the form of a crop circle. This special geometrical symbol can be used afterwards by you, just as you would use a yantra. Those of you who intend to do so, will be able to also do the TRATAKAM on this geometrical alien symbol, aiming to feel telepathically in your inner

universe a certain state of contact and paranormal spiritual communion with this alien civilization. (See picture below)
